

Permission Catalogue

Field	Value
Last Updated	2026-10-02
Status	Draft (Proposed) — final grants pending OPEN Q-003, Q-005, Q-006, Q-013, Q-032

1. Permission keys

Key	Module	Allows	Scoped?
events.create	Events	Create event drafts	committee
events.view_drafts	Events	See unpublished events	committee
events.edit	Events	Edit editable events, private details	committee
events.submit	Events	Submit for review / withdraw	committee
events.approve	Events	Approve (publish), request changes	global (Q-005)
events.cancel	Events	Cancel published events	committee
events.complete	Events	Mark ended events completed	committee
events.delete	Events	Delete never-published drafts	committee
registrations.review	Registrations	View registrants with contact data; accept/reject/waitlist	committee
registrations.attendance	Registrations	Record attendance	committee
registrations.export	Registrations	Export registrants (audited)	committee
articles.create	Articles	Create drafts	committee
articles.edit	Articles	Edit drafts and published articles in scope	committee
articles.publish	Articles	Publish, request changes, archive/restore	committee
membership.manage_cycles	Membership	Create/schedule/extend/close/complete cycles	global
membership.review	Membership	View and decide applications	global (Q-013)
membership.export	Membership	Export applications (audited)	global
members.view	Members	View private member fields (incl. hidden profiles)	global
members.manage	Members	Change member status; manual/legacy member records; claim emails	global
members.create	Members	Add a member directly (the account is created and an activation link is e-mailed)	global
committees.manage	Committees	Create/edit/deactivate committees	global
committee_members.manage	Committees	Assign/end committee_member (and deputy) in scope	committee
roles.view	Access	View all role assignments	global
roles.assign	Access	Assign/end roles (subject to anti-escalation)	global
users.view	Access	Search users and view accounts	global
reports.view_community	Reports	Community dashboard	global
reports.view_committee	Reports	Committee dashboard	committee
reference_data.manage	Admin	Universities, majors, tracks, tags	global
settings.manage	Admin	Site settings	global

Key	Module	Allows	Scoped?
audit.view	Admin	Audit log	global
email_logs.view	Admin	Email delivery logs (beyond own scope)	global

Ownership rights (no permission key): read/update own profile; read/cancel own registrations; submit/edit/withdraw own application; edit own member profile; edit own article drafts (as listed author) until submitted.

2. Role × permission matrix (Proposed defaults)

✔ granted · ① granted in own committee scope only · — not granted

Permission	system_admin	founder	community_leader	advisor	committee_head	committee_deputy	commi
events.create	✔	—	✔	—	①	①	
events.view_drafts	✔	✔ (Q-032)	✔	—	①	①	
events.edit	✔	—	✔	—	①	①	①
events.submit	✔	—	✔	—	①	①	
events.approve	✔	—	✔	—	— (Q-005)	—	
events.cancel	✔	—	✔	—	①	—	
events.complete	✔	—	✔	—	①	①

members.manage	✔	—	✔	—	—	—	
members.create	✔	✔	✔	—	—	—	
committees.manage	✔	—	✔	—	—	—	
committee_members.manage	✔	—	✔	—	①	—	
roles.view	✔	✔	✔	—	—	—	
roles.assign	✔	—	✔ (non-global roles only)	—	—	—	
users.view	✔	—	✔	—	—	—	
reports.view_community	✔	✔	✔	✔	—	—	

Permission	system_admin	founder	community_leader	advisor	committee_head	committee_deputy	commi
reports.view_committee	✓	✓	✓	✓	●	●	
reference_data.manage	✓	—	✓	—	—	—	
settings.manage	✓	—	✓	—	—	—	
audit.view	✓	— (Q-032)	—	—	—	—	
email_logs.view	✓	—	✓	—	—	—	

Global roles holding a "committee" permission hold it in **every** committee.

3. Changing the matrix

The matrix is seed data (`role_permissions`) delivered by migration. Changes require: a PR updating this document and the seed migration, pgTAP tests for the affected policies, and approval by the product owner (organizational meaning) and a system admin (security impact).
